CANCER  
HAIR

*Cancer Hair* is an ambitious short film from writer/director Gail Hackston. It tells the story of Claire, a young woman in remission from cancer who goes on her first post “all clear” date with a likely lad Andrew. After a disastrous start to the date, the two find unexpected common ground in her illness and recovery. This new found affinity prompts her to remove her wig, revealing her true vulnerabilities, if only to him.

It's a romantic comedy about the moments, and people, that inadvertently change our lives and give us the strength to do things we wouldn't do ordinarily.
